Master Bathroom: Glamour Spa

Designer: Cecilie Starin Design

“Everyone wants a spa-like master bathroom,” says interior designer Cecilie Starin. “I wanted to make sure it was glamorous too.” The floating vanity’s waterfall countertop and square brass pulls (from Liz’s Antique Hardware) up the luxury factor. The gold-framed custom mirrors were designed by Starin; they can slide several inches in both directions to block the sun or change the view. The master bath’s walls are covered in Caesarstone intended to look like marble.
